

## Exceptional Opportunities Exist In Canada For Engaging In Poultry Raising

Exceptional opportunities exist in Canada today for engaging in the agricultural or commercial activities of poultry raising and egg marketing. In this respect Canada has a peculiar situation for whilst, at the present time she is exporting eggs to foreign countries at the rate of about six and a half million dozen annually, she is importing for domestic consumption, nearly five and a half million dozen.

It is only of recent years, since Canada has developed the larger business of grain growing and livestock raising with lesser, though no less necessary, agricultural pursuits, that poultry raising has been entered into on what might be considered the proportions of an industrial concern. This interest in poultry raising has been fostered and encouraged in great measure by government campaigns and propaganda and has resulted in a gratifying increase in the number of poultry and the production of eggs. Whilst Canada has been successfully asserting herself as a serious competitor amongst the dairy countries of the world, she has also been developing in a surprising manner as an egg and chicken nation. Though her progress in egg production has been little short of remarkable, the export trade from popular demand, has increased in like proportion yet she continues to send out practically the same amount as she is under the necessity of importing for her own use.

It is only within the past few years that Canada has managed to obtain leadership, so small as it is, in egg exports or imports, due to phenomenal development in the home industry. Since 1909 Canada has the unenviable position of importing each year more eggs than were exported. The exports in 1911, for instance were 92,164 dozen against imports of 2,376,000 dozen. In 1912 exports amounted to 96,546 dozen against 4,241,611 dozen. By 1918 the tide had turned and exports were 4,396,952 dozen against 2,371,452 dozen. The favorable trend has continued due to activity in the promotion of the industry at home and in 1921 exports were 6,579,852 dozen against imports of 5,541,011 dozen.

The Bureau of Statistics reports that there were 24,340,474 hens in Canada in 1921 against 25,942,102 in 1920. During 1921 these hens were responsible for the production of as near as can be estimated, 16,971,000 dozen eggs as compared with the previous year's production of 12,040,000 dozen.

Poultry-farming has long been popular and profitable in Canada especially in the Maritime Provinces and British Columbia, but the increase in recent years has been brought about by the adoption on a greater scale of the method of poultry raising by mixed farmers and those following agricultural pursuits of other kinds who have found this branch extremely profitable and returning quick and steady results. In this regard it is significant that Saskatchewan, an area almost wholly devoted to agriculture, has followed closely by Ontario. It is equally significant that Alberta, an other prairie province, takes third place and that Manitoba, the third of the 10 in bracketed fourth with Quebec.

The opportunities lying in the poultry industry in Canada are self-evident from a survey of the facts. The export trade is developing to a larger extent each year as the popularity of the Canadian produce increases and the demand is greater. In the decade 1911-1921 exports in eggs have grown from 92,164 dozen to 6,579,852 dozen. Despite the tremendous increase in production practically an equal amount has to be imported for local domestic needs. Room exists for wide expansion in production.

### Railroads Pay Theft Losses

Enormous Sums Required Each Year to Reimburse Public

"It was stated the other day in the newspapers that within a period of three years six million dollars' worth of goods had been stolen from the New York Central Railroad. This brings up the question of the enormous losses that are entailed every year from like causes. In a booklet of U.S. railway statistics, before us, is noted the fact that in the year 1917 the American railroads paid out the sum of \$14,000,000 in losses and damage to freight, baggage, property and livestock. In the year 1920 the total losses and damage bill was \$12,000,000, in addition to the sum of \$1,000,000 in losses and damage to persons taken into account. This annual bill which in 1920 amounted to \$13,000,000, is a very heavy one.

These figures demonstrate two things, first, that the railways are not receiving the full and highest amount of their property and, secondly, that the public had to pay the freight, so to speak.

While the statistics which compiled this book does not give in many words and figures divide the losses from other causes, it is none the less plain that thefts formed a very large proportion of the whole. In this connection, Canadian railway managers ought to be very much interested in the equally startling array of figures, and those could be readily latched up by the experimenter. They would, as a client of our transportation system, be from the Toronto Star-Examiner Night.

### Enthusiastic About Canada

Sir Julian Orde Says Dominion Has

"Throughout the whole of my tour through Canada from east to west, I have not discovered what I should term a distinctly Canadian sentiment. In these words, Sir Julian Orde, Secretary of the Royal Automobile Club, and driving secretary of the British and the automobile industry, summed up an important aspect of his journey that has taken him far and wide around the world, and from which he has just returned.

Sir Orde is enthusiastic about Canada's paved roads in the vicinity of large cities, which he declared were second to none, but he was not very favorable impressed with prairie highways. He returns home convinced in his opinion that if Canada were the right kind of insurance, she has a future in store for her such as no country has ever had in prospect before in its history.

"There are prospects of an era of prosperity in the Dominion far exceeding those of the United States, in my opinion, said Sir Orde. "The great need of the Dominion (today) is men and more men, and so soon as the British Empire has a surplus of men, she will hold out opportunities to new settlers such as no country has ever held out before. "The taking care of a very large influx of the right kind of settlers.

### New British Plane Has Two Decks

Fighting Bomber Equipped With 1,000 Horsepower Engine

"To go 'upstairs' in an airplane in flight will be possible in a machine just completed for the British experiment, which has been designed to take the first of the 1,000 horsepower 'club' engines.

This airplane, which is undergoing an official test at Martinstown Heath in England, is the first of the 'club' engines. It has two decks, one above the other. On the 'ground floor' there is all the elaborate release-gear and instruments for the accurate dropping of large bombs—the machine being, in fact, a fighting bomber with an exceptionally wide radius of action.

On the 'first floor' communicating with that below, will be accommodated the pilot and navigator of the machine, who have an admirable view on all sides.

The Marine and Fisheries Department of the Dominion Government, with the cooperation of the Canadian National Railways, have made extensive preparations for the reopening of all the principal lakes in the surrounding country adjacent to Port Williams and Fort Arthur with thousands, and in some cases millions of lake trout.

The lower story of a house in Kansas City, Kan., is built entirely of diamond-shaped telephone and telegraph poles. The word 'diamond' is derived from the shape, and at last, meaning 'hard of the sea.'

### Egg Laying Contest

Reported that this Year's Saskatchewan Contest is a Splendid One

"The performance of the 10 pens entered in the Saskatchewan egg laying contest, conducted by the officials at the Indian Head Experimental Farm, May 1, shows pen No. 2, entered by the Experimental Farm, leading pen No. 3 by a margin of 36 eggs in 26 weeks. The two pens are white Wyandottes and both listed as sick during the last week.

The Experimental Farm pens are entered for record of competition only, and will not compete for prizes. Superintendent MacKenzie and A. M. Pikey, manager of the contest, report this year's performance a splendid one, with an apparent increased laying ability in the pens entered.

Following is a list of the pens and the owners:

1—J. L. Leithwaite, Rosthern; sick; white Wyandottes.

2—Experimental Farm, Indian Head; sick; white Wyandottes.

3—Experimental Farm, Indian Head; sick; white Wyandottes.

4—Experimental Farm, Indian Head; sick; white Wyandottes.

5—Experimental Farm, Indian Head; sick; white Wyandottes.

President of Manitoba Section of the  
Western Canada Press Association.

Conditions Growing Better

World is Recovering Slowly from  
Effects of War

Conditions in the world are not  
growing worse. They are growing  
better. Recovery from the effects of  
the war is progressing. The evils to  
be attacked are already becoming  
less important, and the very things  
they are being attacked is a great  
step toward correcting them. Political  
conditions the world over are  
growing perceptibly milder and sound-  
er. Business is responding with  
greater activity. Confidence is just  
beginning to return. The number of  
employed is diminishing in this  
country at least, and probably in all  
others. Experience is teaching us  
the solution of their problems and  
false steps, when made, are productive  
of less serious results than in the  
case last year and the year before.  
That and the year before that—But  
false steps.

Rayling Using  
Lazy Man's Invention

Swissman Concealed Idea of Operat-  
ing Signals From House

Few things are wholly bad. Last  
year is not an admirable trial in an-  
guish, but for all that it appears to  
have been responsible for at least one  
useful and important invention. In  
1916, says Mr. Herbert W. Howell in  
Discovery, a railway Swissman had  
to attend to two station signals  
some distance apart, decided to save  
himself the trouble of walking to and  
from between them by fastening the  
two levers together with a long piece  
of wire. He used a broken chair as a  
convenient rest and ran the wire on  
into his hole. Each night after that  
he sat by his fire and worked the  
two signals without setting foot out-  
side.

Presently the railway authorities  
found out what he had done, reprimanded him for his laziness, but  
they also found out his idea of his in-  
vention—YOUTH COMPANION.

Mineral Production in B.C.

Mineral production in the province  
of British Columbia in 1921 amounted  
to \$20,000,000, according to an an-  
nual report of the Department of  
Mines, tabled in the Provincial Legis-  
lature by Hon. W. M. Shaw, Minister  
of Mines. The total tonnage of ore  
mined in the province during the past  
year was 1,552,652, having a gross  
value of \$12,500,000, and with the  
placer gold a total value of \$13,  
152,500.

Recalled every day the things seen,  
heard, or read, which make any addi-  
tion to our understanding.

Repentance is much more than  
feeling sorry that you sinned.

On the "first floor" communicating  
with that below, will be accommo-  
dated the pilot and navigator of the  
machine, who have an admirable view  
on all sides.

To Hestock Lakes

The Marine and Fisheries Depart-  
ment of the Dominion Government,  
with the cooperation of the Canadian  
National Railways, have made exten-  
sive preparations for the reopening of  
all the principal lakes in the surround-  
ing country adjacent to Port Williams  
and Fort Arthur with thousands, and  
in some cases millions of lake trout.

The lower story of a house in Kan-  
sas City, Kan., is built entirely of dia-  
mond-shaped telephone and telegraph poles.

The word "diamond" is derived from  
the shape, and at last, meaning "hard  
of the sea."

Don't hurt a little! Drop a little  
"Prestone" on an aching joint, instantly  
it cures sprains, bursitis, rheumatism,  
you lift it right out of its bed, and  
it's gone. Truly!

Your druggist sells a tiny bottle of  
"Prestone" for a few cents, sufficient  
to remove any acute or chronic  
pain between the toes and the cap-  
sules, without surgery or irritation.

# GENERAL THE GLASGOW HOUSE LADIES' WEAR

## Sale of Dresses & Suits Friday and Saturday at \$6.75

Economical Women and Misses Should Avail Themselves of this Extraordinary Money Saving Opportunity

Dresses of Light Floral Voiles, Check Gingham, Repps in stripes and dots, and plain Zephyrs. Suits of White, Blue and Natural Linen. Good practical styles, well tailored. Sizes 34, 36 and 38.

Week End Clearance, all one price - - \$6.75

### ITEMS OF LOCAL INTEREST

School closes for the summer holidays next Wednesday.

Yesterday was the longest day in the year. It will not be long till the days begin to get shorter.

Mrs. J. Gray returned home last Saturday after spending some months visiting friends in the States.

Now would be a good time to look at the label on your paper and see how you stand.

Gordon Memorial Sunday School will hold its annual picnic on Tuesday, July 4th, in Hargrave park, Medicine Hat.

We are glad to be able to report that Dr. A. W. Hicks is returning to Redcliff early next month to resume his practice here.

Keep in mind the big picnic at Box

Springs on Saturday, July 1st. It promises to be bigger and better than ever this year.

Quite a number of farmers in this district are already cutting their fall grain. It is turning out very satisfactorily.

Mr. Cole, of Montreal, head engineer for the Dominion Glass Co., is in town this week on business in connection with the plant here.

The News reports that many important all news are coming to Medicine Hat to investigate fields in many island districts.

At the Masonic Grand Lodge held in Edmonton last week, Geo. Murray, of Medicine Hat, was elected Deputy Grand Master for this province.

Messrs. Ellis and Bishop, of the Box Springs district, sold a car load of horses this week to a buyer near Saskatoon. They were shipped last Tuesday.

The Girls' Guild of Gordon Memorial church intend holding a lawn social on the church grounds early in July.

July. Look out for the date next week.

We are this week in receipt of the annual magazine published by the Crescent High School, Calgary. The magazine is neatly gotten up and reflects great credit on the managing editor, Raymond Klinck, a graduate of the Redcliff school.

In accordance with the usual custom during the summer months, a portion of the glass plant here was closed down yesterday. As a result about thirty employees will take their usual six weeks' holidays. The balance of the plant is still in operation.

J. Rutherford had his first breakfast of strawberries off his own strawberry patch yesterday morning. Jack says they are so large this year, that one berry would almost make a meal. He reports prospects good for an abundant harvest in this branch of his fruit garden.

The heavy shower of rain which passed over this district last Tuesday evening was very welcome. It was badly needed and will do considerable good. A slight fall of hail accompanied the rain but not enough to do any damage.

R. Mary's Altar Society will hold a sale of home cooking, fancy work, children's wear, grab bag, etc., in Mac's hall on Thursday, June 22nd, from 2:30 to 6 p.m. A splendid assortment of useful goods will be offered at this sale.

The Girls' Branch of St. Ambrose W.A. will hold a strawberry festival or vacant property next Jy. Their office on Broadway on Thursday evening, June 22nd. A good evening's entertainment is being arranged. Every body invited to attend.

At a meeting of the S.S. teachers of Gordon Memorial church it was decided that the Sunday School would meet at 12:30 instead of 2:30, beginning on Sunday first, June 25th. The change will continue in effect during the months of July and August.

The Intermediate Girls' Class in connection with Gordon Memorial church will hold a sale and afternoon tea at the church on Saturday, June 24th. A number of useful articles will be offered for sale and tea will be served from 2 to 4. An invitation is extended to all to attend.

On the occasion of the visit of the Governor General to Medicine Hat this morning, the G.W.V.A. will tender him a banquet at the G.W.V.A. club rooms. An invitation is extended to all residents of the city to attend this banquet. The G.W.V.A. will tender a luncheon to Lady Byng at the Astoria hotel, in which an invitation is also extended to all of town ladies.

The best programme ever arranged for the entertainment of Exhibition visitors has been prepared for the afternoon of the forthcoming Calgary Exhibition, June 26th to July 1st. As a matter of fact, the 1922 Exhibition will be the best ever held from every point of view. All exhibit space has been taken up and many new exhibitions will appear in the buildings.

On the occasion of his approaching wedding, T. Osgood was surprised by his fellow workmen, who met him last Monday evening and presented him with a case of wine as a mark of the esteem in which he is held by them. The donors assured him the present carried with it the very best wishes of all associates for a long and happy married life.

According to Ottawa reports there are "few people in Ottawa who have been following the proceedings in the house believe that the Crow's Nest Pass agreement will be restored."

The opinion expressed is that "the agreement is not likely to be abrogated posthumously of restoration of the agreement, perhaps for three or four years. That will probably mean the end of it."

Approximately fifty thousand tons of Cape Breton coal is now being shipped from Sydney to Boston. The coal is for the New York, New Haven and Hartford Railway and other American concerns.

### NOTICE

## The Drought Area Relief Act

The Drought Area Relief Act has been passed to enable persons residing in certain areas of Southern Alberta and their creditors to adjust their accounts, and to prevent the dissipation of the resources of needy residents by a multiplicity of action and other legal proceedings.

Any person who has been resident and actively engaged in farming operations in such drought area for at least one year prior to January 1st, 1922, and is still resident and engaged in farming can come within the provisions of the Act.

The duty of the Commissioner is to endeavor to adjust matters between residents in the said area and their creditors so as to provide for the satisfaction of just claims.

Any resident farmer within the drought relief area, or any creditor of such resident farmer, can apply to the Commissioner for an enquiry into and an adjustment of his affairs.

It is recommended that applications be forwarded at once, as if there is any delay the detail work necessary in the adjustment of these accounts cannot be completed in time after the crop is harvested.

Any resident farmer, or creditor, failing to make application before August 15th next does so at his own risk, as it may not be possible to get the necessary help and complete enquiries after that date.

Applications for such relief, and to come under the provisions of the Act, should be made at once, in writing, to the Commissioner, Drought Area Relief Act, 320 Leguine Building, Calgary, so that steps can be taken to make the necessary inquiry.

For further particulars apply to

E. J. FREEMAN, Commissioner, Calgary.
